

A Partner...Not a Parts Vendor

At Highpoint Shutters, we'll help you customize a plan that's just right for you. Ask us about:

- A **full service shutter program**, where we'll take all of the hassle out of measuring, quoting, and installing
- Our quick-ship **completed shutter panel program** for a fast-cash turnaround
- Our **Fabricator Program** where we can help you maximize profits as you build your own shutters
- A **Builder Program** to add Highpoint Shutters to your Customer Design Center product mix

Highpoint Shutters

Our unique shutters represent an entire system of components, consulting, technology and training.

We simply help our reseller partners realize greater profits and retain happier customers.

In every case, we'll provide attractive displays, marketing materials, and product knowledge training in a simple turn-key approach.

Highpoint Shutters is extremely proud of our legacy: 35 years of proven success in quality shutter design, fabrication, sales, training and installation.

HIGHPOINT
SHUTTERS

The Most Trusted Name In Custom Shutters

Think All Shutters Are The Same?

Home improvement retailers have demanding expectations. Highpoint Shutters consistently exceeds them all.

Highpoint Shutters are simply the world's best in shutter quality, design options, on-time installation, product durability and customer service.

We are the recognized industry leader in innovative and cost effective Shutter solutions for both the home and the commercial environment.

Unique Solutions For Every Shutter Need

- Our classic **Highpoint Wood Shutters** are furniture grade, tight grain 100% engineered hardwood. They're kiln dried so no resin bleeds through the painted or stained finishes.
- Our **Highpoint Poly Shutters** are a 100% non-toxic synthetic material, that's flame retardant, water-resistant, and looks and feels exactly like wood.
- Our patented louver tension system ensures optimum performance.
- Our surface finish process is water based, environmentally friendly and yields a beautiful, lustrous finish.

A Legacy Of Distinction

Since 1976, we've been building shutters to fit any window or door, any specialty shape or size. We have shutters to fit every décor and every budget.

Our trained craftsmen build every hardwood and poly shutter right here in the USA. And when we're asked to meet tight schedules, we guarantee on-time installation performed by our own factory trained staff.

With three decades of manufacturing and installation experience, we're able to guarantee the fastest turnaround time in the industry, **in as little as 21 days.**

Environmentally Friendly and Energy Efficient

Windows are actually the greatest source of energy loss in any enclosed environment. Our Highpoint Poly Shutters will insulate up to 3 times more than wood shutters, so they actually pay for themselves in reduced heating and air conditioning expenses.

Our environmentally sustainable Highpoint Poly Shutters will NEVER chip, peel, warp or discolor. They contain only non-toxic, formaldehyde free glues, and our proprietary finishes are non-toxic, water based and produce very low VOCs.
